

IMPORTANT NOTICE

Medical Disclaimer

Please read carefully before relying on any insight, score, or recommendation surfaced by Aveuti.

Not a medical device or diagnostic tool

Wellness intelligence, not clinical judgment.

Aveuti provides wellness insights based on self-reported and AI-assisted data. It is **not a diagnostic tool** and does not replace professional medical advice. Always consult a healthcare provider for medical decisions.

Aveuti does not provide emergency services

In a medical emergency, seconds matter.

Aveuti is not designed to detect, respond to, or dispatch help in medical emergencies. If you or someone you care for is experiencing a medical emergency, call your local emergency services immediately (for example, **911** in the United States) — do not rely on the app.

Insights, not instructions

Scores and recommendations are directional signals. Do not start, stop, or change any medication, treatment, or care plan based on Aveuti alone.

AI-assisted data

Some inputs are interpreted by AI models and may be incomplete or inaccurate. Confirm anything material with your healthcare provider.

This document reflects Aveuti's current product scope and is subject to update. It is provided for user awareness and is not a substitute for the terms of any care agreement you have with a healthcare provider.
